Projects

AIRA AI – Mock Interview Platform (MERN + VAPI AI)

April 2026

- Developing an AI-powered mock interview platform enabling real-time voice-based interview practice.
- Integrated VAPI AI for conversational interaction and dynamic question generation.
- Built full-stack architecture using MERN stack with authentication and session handling.
- Designed scalable backend APIs and responsive UI for seamless user experience.

Developer Portfolio Website (React + Tailwind + Animations)

March 2026

- Built a modern personal portfolio with smooth animations and interactive UI.
- Implemented scroll-based animations and transitions using JavaScript libraries.
- Used Lucide React icons and optimized UI/UX for clean and professional design.
- Ensured responsiveness across devices with Tailwind CSS.

Product Return Prediction Model (Python, ML)

May 2025

- Developed a machine learning model to predict product return probability.
- Performed data preprocessing, feature selection, and model evaluation.
- Improved understanding of ML workflow and performance metrics.
